

## Effective Club Framework – what you need to know

We are committed to helping clubs become world-class at every level and across all disciplines through the Scottish Gymnastics 2015-2027 Strategy.

We have designed the Effective Club Framework to support clubs and define what world-class looks like, shaped from governance strategies and frameworks. We are leading the way in Scotland as the only governing body to offer clubs this level of support.

Our Framework is designed to be flexible and simple using club-friendly language. It is not a prescriptive approach to running an effective club as we recognise each club is different: what may be appropriate for one may not work in another. This mirrors our strategic commitment to helping clubs achieve THEIR ambitions.

- A cross-organisation approach made sure we got it right. The document is clean and simple with each principle offering things to think about and tips on how to implement the principles.
- Points clubs in the direction of where to find out more and get support for their development.
- Hard copy backed up through our website offering templates, toolkits, calendar of workshops and webinars: [scottishgymnastics.org/clubs-club-development](http://scottishgymnastics.org/clubs-club-development)

We would encourage clubs to think carefully about their own priorities, capacity and what they are striving to achieve. Then take time to plan, garnering the necessary support and setting realistic timeframes.

Clubs should use the self-assessment to see where they are and identify areas of development then tap into support available.
