Introduction

Building on solid foundations

As Scottish Gymnastics enter our 125th year as an association we introduce our new organisational strategy. This plan sets out a new long term strategic vision for gymnastics in Scotland.

Scottish Gymnastics have made a number of changes to strengthen our governance as we enter our new strategic period. This work has ensured we have a strong foundation for growth moving forward.

Gymnastics as a sport in Scotland continues to go from strength to strength, membership figures are at their highest ever level (18,133). In addition there are now more dedicated gymnastics facilities in Scotland than ever before and awareness of gymnastics has never been greater.

Shaping the plan

The foundations of our 2015-2027 plan started over 18 months ago, with a series of consultations with our membership. Throughout this consultation process our membership highlighted their desire for long-term thinking, planning and commitment that has a strong focus on the development of talented gymnasts and professional coaches to achieve their aspirations for Scottish Gymnastics.

A long term vision of success

The result of this consultation process is the development of a long term vision and strategy to guide the work of Scottish Gymnastics through to 2027. This strategy puts clubs at the centre, and contains a series of strategic objectives designed to develop the people who can transform Scottish Gymnastics to better serve the needs of all Scottish gymnasts.

A strong Scottish Gymnastics, inspiring & nurturing emerging talent

Scottish Gymnastics aspires to:

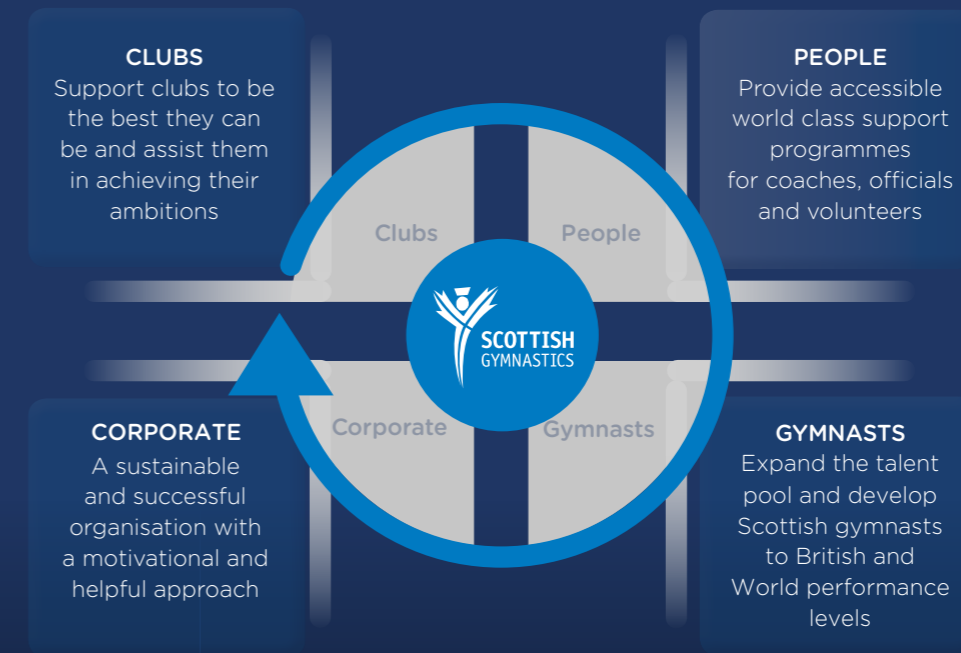

- Invest in and support the development of our members to help them achieve their objectives and aspirations, at all levels
- Develop and maintain an effective partnership with members and wider partners, supporting sustainable club and talent development
- Be a responsive and reflective governing body, building a reputation for effective leadership for the sport, underpinned by strong governance

Vision

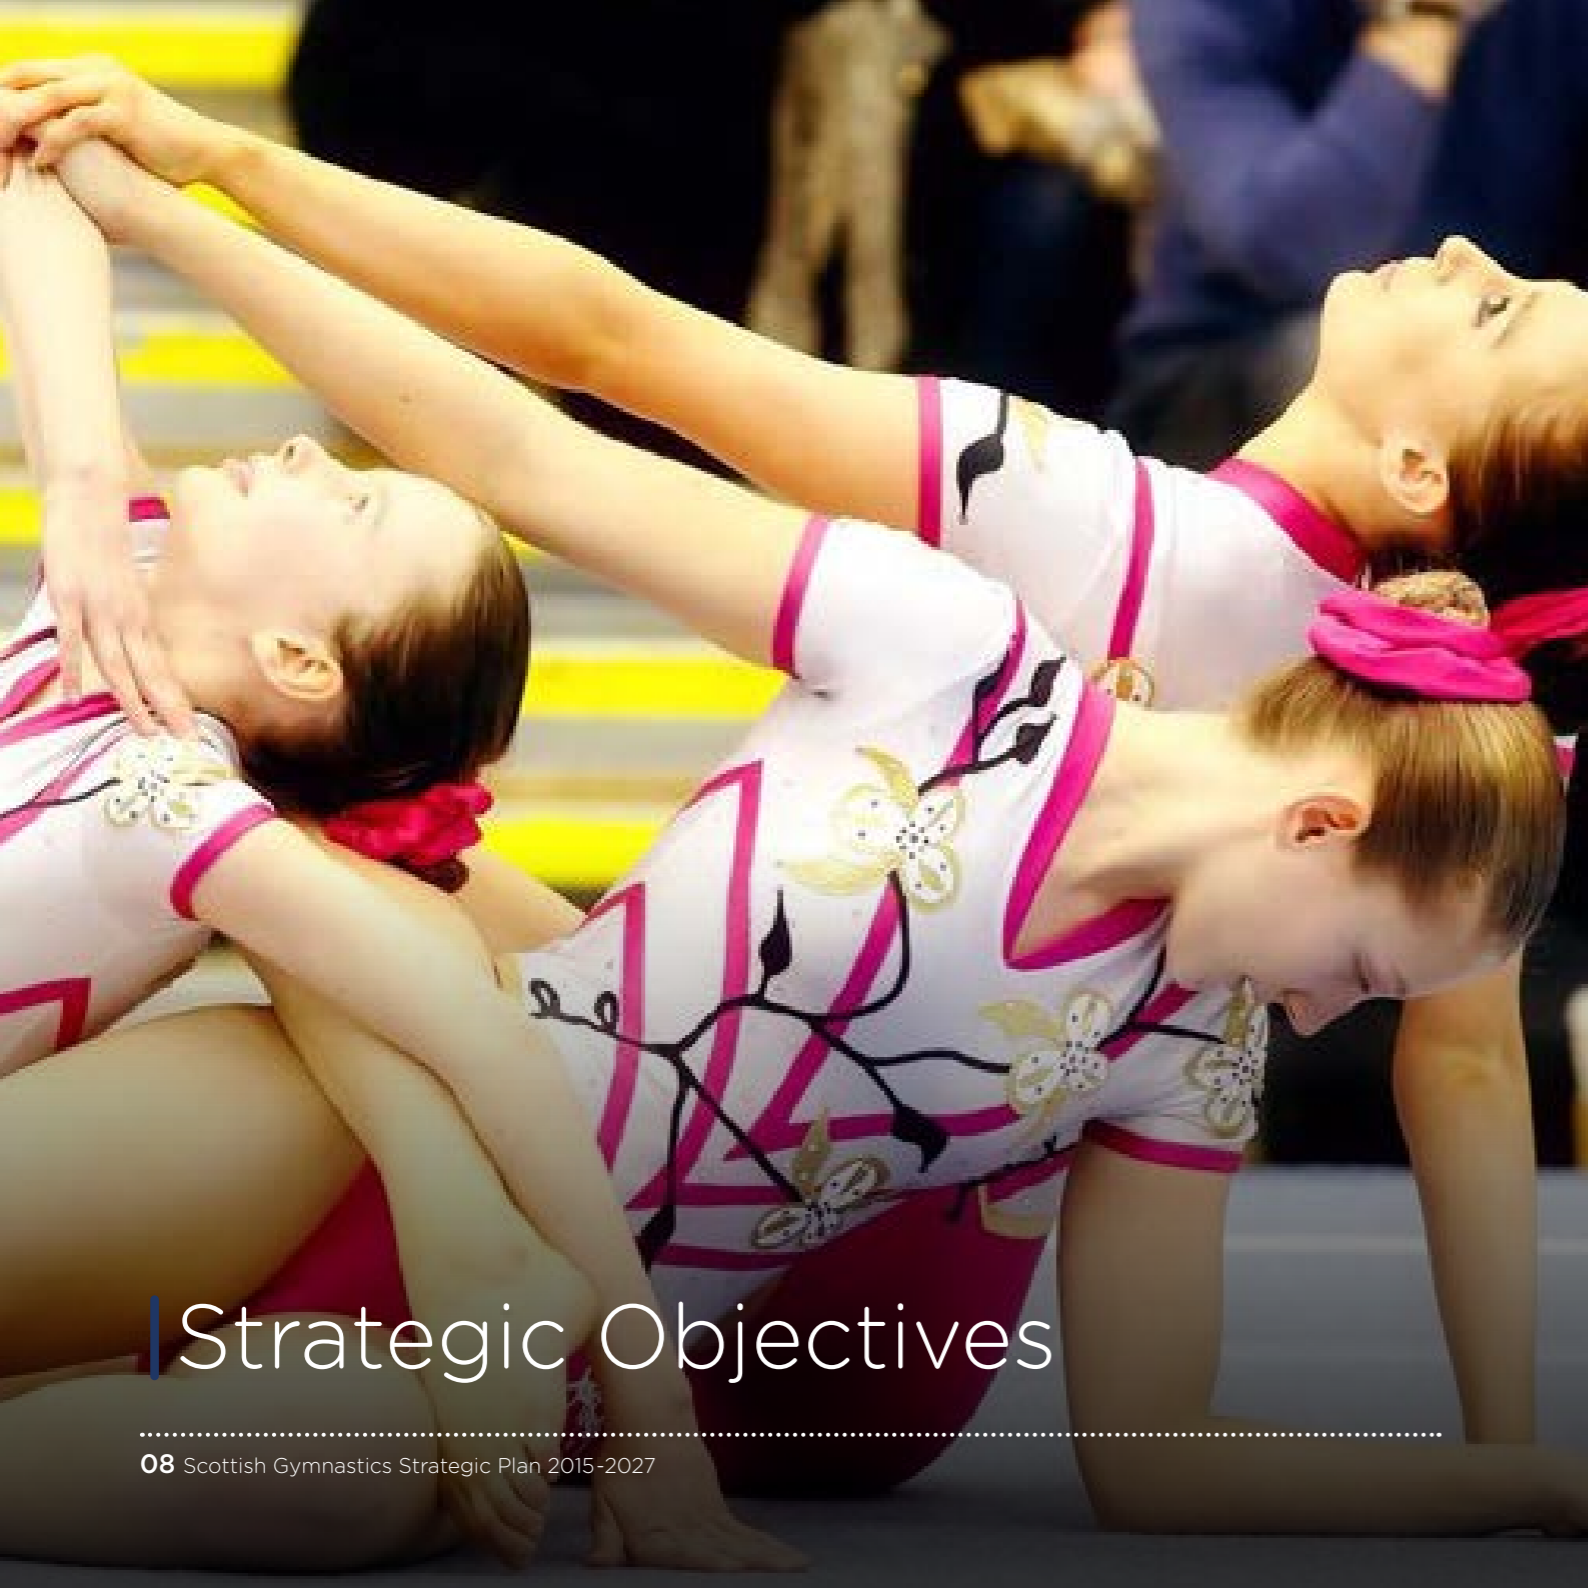

A successful future for Scottish Gymnastics will rely on a commitment to one long term vision.

The vision is focused on the delivery of strategic objectives in four, key inter-dependent areas of Clubs, People, Gymnasts and Corporate, with time lines extending to 2027. The planning, operational delivery and progress will be based around quadrennial sporting cycles.

Above all, Scottish Gymnastics will empower its member clubs to achieve their goals.
