# WOMEN'S ARTISTIC DISABILITY GYMNASTICS CHAMPIONSHIPS RULES 2023

## Philosophy

Women's artistic gymnastics at whatever level and ability of the competitor is about the pursuit of technical excellence in the elements performed and the composition and connection value of the Cycle 15 Code of points. The Women's Artistic programme adapts these basic principles to be able to accommodate the various different aspects of the Women's programme.

The Women's Artistic Disability Competition is about inclusion, a level playing field, fair play philosophies, and is pro-choice. This category must not be deemed to be "lesser" or of a "lower class", and coaches, judges, gymnasts and parents are discouraged from framing it that way.

The overriding aim is to allow Gymnasts with a disability a meaningful competition structure that is ACHIEVABLE. The new structure will allow gymnasts to fulfil the rules within their ability level and promotes self-value, self-worth and pride in their achievement.

Gymnasts will be able to compete at the Disability Championships providing the necessary classification forms have been completed and submitted. Gymnasts with classification are also eligible to compete in the mainstream Classic Challenge Championships. The Disability Championship Rules are largely based on the Classic Challenge rules at zinc, copper & bronze level.

## Introduction

These new Women's Artistic Disability Rules have been adapted from the Classic Challenge Championship Rules which are largely based on FIG rules and directives, yet they provide much more choice and increased variety for a more personal and suitable choice of a lower number of counting elements and compositional requirements, thereby reducing potential stress and injury. Considering the impacts of Covid-19, every effort has to be made to keep gymnasts in the sport, and so save the clubs. Our hope is that this revised code contributes to those efforts.

## Framework

These new rules fall under the new "**Classic Challenge**" heading. An annual review with the WTC will occur to make any necessary changes.

So as to not require a whole new set of judging awards, the judging system is based on current FIG D and E evaluations with the addition of uncoded elements being recognised and counted towards the start value of the exercise. Gymnasts have a choice of Compositional Requirements (CR) which have also been modified to reflect the difficulty level. It is hoped that by allowing a choice of CR's the gymnasts will be better able to work within their ability. Execution will remain as FIG (unless otherwise stated), encouraging clean, aesthetic work.

## Competition Structure

The different levels are called Competition B, Competition A & Open Competition.

Competition B (8+ years) is largely based on Zinc rules, Competition A (9+ years) on Copper rules & Open Competition (10+ years) on Bronze & silver rules. It is hoped that these new levels will enable & encourage regions to include performance gymnasts with a disability within their existing competition structure and allow these gymnasts additional competition opportunities.

The evaluation of exercises is broken down into two main areas:-

### D Score & E Score

The D score is the:

Difficulty value of the elements (2 or 3 acro (including the dismount), 2 or 3 dance & 1 or 2 optional elements - depending on competition level)

Composition Requirements (CR's)

Bonus (including any FIG CV)

The E score is the:

Execution score this is the total deductions taken for how the elements and connections are performed.

It is important to understand that it is not compulsory to fulfil all the composition requirements. The gymnast is encouraged to perform skills within their capabilities with the best technique they can.
